

CABLES AND WIRES - COPPER CONDUCTOR -190°C to +1400°C

We supply a truly wide range of high performance insulating wires and cable for all industrial applications, electrical motor and equipment manufacturing, buildings and hazardous environment and special cables in temperature ranging from -190°C to $+1400^{\circ}\text{C}$.

All wires and cables products are manufactured under strict quality control ISO9001/AFAQ system in Europe's one of the largest group of 5 factories, well known for quality and diversity of product range.

*High Temperature wires & Cables -190°C to +1400°C

*Heating Wires & Cables, Pyrometry cables - thermocouple, compensation, sensor cables

*Domestic PVC cables, Safety wires & cables

*Fireproof & fire retardant cables, halogen free, IEC331, IEC 332-1, CR1-C1 as per NFC 32-070,

*Seals for Oven door and Fibre Glass Sleeve

Applications:

Power supplies, Lighting, Automotive, Aviation, Ship building & Railways, Electric Motors, Home appliances, Electrical equipment, Building, Steel mills and Chemical works hazardous area use.
