

## ENGINEERING LAMINATES ELECTRICAL INSULATION MATERIAL

Sheets, Tubes, Rods and machined components made to drawings, Machines components, pre-peg material, wound tubes, copper clad.

- Phenolic Paper ( SRBP ) and Phenolic Cotton ( SRBF )
- Epoxy Cotton, Epoxy Glass and Silicone Glass
- Polyester Glass Mat ( GPO3), Polimide Glass
- Pultruded profiles, Resin impregnated glass fibre
- Vulcanised fibre, rubber faced material, Mica parts
- Mica paper bonded with heat resistant silicone resin
- High performance composites for electronic industry
- Screen printed circuit boards- single & double sided

**Application include :** Electrical and Electronic industry, Steel plants, Railways, Aviation, Power plants and Chemical complexes & others. We supply above material and machined components from associated works having ISO 9002/BS5750 part2, AQAP4 and reputation built through innovation since 1868. Please contact Hilatex with your specific requirement for product data sheets and quotation.
